PROJECTS

Taaza Fruit Store Website

https://m-mahir-khan.github.io/Fruit_vegetable_store_Project/ • December 2023 - December 2023

Built a fully responsive website for "Taaza," an online fruit store, using HTML, CSS, and Bootstrap. Designed clean, vibrant layouts that enhance user engagement and make browsing intuitive across all devices. Integrated Bootstrap components to achieve a polished, responsive design, ensuring optimal user experience on mobile, tablet, and desktop.

Nike Shoes Store Website

<https://shoes-store-landing-page.vercel.app/> • May 2024 - June 2024

Developed a dynamic and responsive e-commerce website for a Nike shoes store using HTML, CSS, JavaScript, and Bootstrap. Designed user-friendly layouts and implemented interactive features, enhancing the user experience. Integrated Bootstrap for a responsive design that adapts seamlessly to various screen sizes. Demonstrated front-end development skills, showcasing effective styling, functionality, and a focus on branding consistency.

Weather App

<https://m-mahir-khan.github.io/Weather-App-Using-API/> • September 2024 - September 2024

Developed a weather app using HTML, CSS, JavaScript, and an API integration to fetch real-time weather data. Designed an intuitive interface that displays current weather conditions, temperature, and forecasts based on user-selected locations. Implemented responsive styling for seamless use across various devices, enhancing usability and user engagement.
